

Electronic 1099 Consent Form

The IRS has approved the use of electronic 1099 statements, instead of a paper copy. Owners may choose to receive their 1099 statement electronically. The advantages of this option are:

- Quicker access to your tax information
- The form is available on any device with internet connection

By signing this form, you are consenting to receive your 1099 by electronic, a paper copy will not be provided to you. This consent remains in effect indefinitely or until you inform us that you wish to revoke the consent. Simply notify us in writing, or email, that you would prefer a paper copy instead of the electronic version.

If you withdraw your consent after the 1099 has been posted to the secure website, you can request a paper copy be mailed to you with the contact listed below.

Please provide/review the following information to ensure proper receipt of the website address, unique login information, and password that will be needed to access your electronic 1099. Please keep us informed of any changes that occur during the year as we will need accurate information to notify you when your 1099 is available. Please note that your 1099 will not be emailed to you, simply the required information needed to access your 1099.
